

KentuckyOne Health *Promise*

The following employee value proposition, the *KentuckyOne Health Promise*, is intended to define KentuckyOne's commitment to employees and the commitments needed from KentuckyOne staff, physicians and leaders.

Our *Promise* is to work hand-in-hand to meet shared expectations so that we can all commit to a better future.

We share a cherished legacy, a confident future and a mission to care for the body, mind and spirit of the people we serve.

We want a diverse workplace and culture that we are proud to be a part of each day — delivering the highest standards of quality, safety and service.

We'll keep our *Promise* by meeting these standards:

Values Led

Our Values guide our behavior and govern our actions.

Opportunity

People who take responsibility for their development will find many paths to achieve their potential.

Work Environment

We must support one another — respecting diversity and practicing inclusion.

Recognition and Rewards

Everyone's contribution is appreciated and, when needed, we go that extra mile.

Meaningful Work

We bring, wellness, healing and hope to all and a shared commitment to provide quality.
