

**KentuckyOne Health exists:**

— TO BRING —  
*wellness, healing*  
& **HOPE**  
to all

**We do this by putting our values into practice:**

#### **Reverence – Respecting those we serve and those who serve**

- Ensure clear expectations, meet deadlines and follow through with commitments
- Provide and accept feedback including diverse opinions and celebrate good work
- Create a welcoming atmosphere for everyone
- Keep workplace clean and safe

#### **Integrity – Doing the right things in the right way for the right reason**

- Demonstrate the highest standard of ethical and professional conduct
- Demonstrate personal responsibility and accountability
- Work with others in a straightforward and honest manner
- Openly raise questions and talk about mistakes in a non-judgmental manner

#### **Compassion – Sharing in others' joys and sorrows**

- Actively promote care of body, mind and spirit among patients/family and encourage work/life balance among staff and physicians
- Foster an environment of patient/family engagement and accountability in their care/treatment
- Positively engage persons and issues through change and adversity
- Anticipate and resolve conflicts with a goal of achieving positive solutions

#### **Excellence – Living up to the highest standards**

- Continually expand professional knowledge and skills and share them with others
- Promote and practice evidence-based care that meets the highest standards of quality, safety and service
- Support a team environment including collaboration across departments/facilities
- Maintain a high standard of performance which positively motivates co-workers and volunteers and develops new staff
